

GUNS AND GARBAGE

Protect Your Right To Keep And Bear Arms

Guns And Garbage is an ongoing community improvement and educational outreach program. Those who love liberty will band together to openly carry handguns while picking up litter to beautify our streets and our communities. Our goal is to show people that guns are legal, and responsible gun ownership SAVES LIVES and REDUCES CRIME. We're starting in Lexington, because that's probably the area of Kentucky where we most need to educate the public and counter the anti-gun sentiments via a fact-based educational campaign. The state sponsored program to pick up litter should be an excellent way to present gun ownership in a positive light to the people we most need to reach.

Dress for the weather, and wear boots or heavy high top shoes and gloves. Please bring an orange safety vest or coat if you have one. Make certain that your open carry handgun is safe at all times, in a secure holster that positively retains the weapon and completely covers the trigger. You may carry in any manner that is safe, but you are encouraged to carry loaded weapons without a round in the chamber for this event. Please do not bring rifles, shotguns or large "hand cannons" such as AR-15 pistols. We want to present a calm and non-threatening image to educate people who have irrational fears about weapons.

CALL OR EMAIL YOUR SECOND AMENDMENT FRIENDS! LET'S HAVE A HUGE CROWD!
